The phenomenon of the Beksiński family

The greatest popularity of the artist's name occurred during the premiere of the biography of Tomasz and Zdzisław Beksiński in 2014. Later, the family's story was presented in a feature film "The Last Family." The turbulent, gloomy and disturbing work of Zdzisław Beksiński is connected with the equally tragic story of the life and death of his loved ones. The painter committed suicide at the age of 41, after his mother died a year earlier, the artist's wife, Zofia, also passed away in the Beksińskis' apartment, after being ill for many years. The mother, and Zdzisław himself was murdered there a few years later. In pop culture, the family The Beksiński family has been labeled as "cursed" due to the constant tragedies that have befallen it.
